

A full-stack Next.js website built for the temple community — featuring e-commerce, CMS, forms, backend APIs, and cloud deployment.

SHOP E-Commerce & Shop

- Product catalog powered by Medusa commerce engine
- Vendor-attributed storefronts (multiple vendors)
- Add-to-cart with variant selection & localStorage persist
- Full checkout flow: shipping, billing address, discount codes
- Stripe payment integration + webhook for confirmation
- Order management: create, confirm, cancel, track status
- Post-payment success & cancellation pages

API Backend & Database

- Node.js/Express backend with RESTful v1 API
- PostgreSQL database with Prisma ORM
- Order service: create, retrieve, update, cancel orders
- Discount service: validate codes, apply, track usage
- API key authentication for public endpoints
- Order & discount schema with indexes and cascade deletes

AWS Deployment & DevOps

- AWS Amplify CI/CD pipeline with auto-deploy on push
- Environment variable validation script on build
- Docker Compose for local full-stack dev environment
- Stripe webhooks verified with signature checking
- Email confirmations via Resend transactional email

CMS CMS & Content (Strapi)

- Strapi headless CMS for dynamic content management
- Announcements, events & puja schedules on homepage
- ISR (Incremental Static Regeneration) for fast page loads
- Webhook-triggered revalidation from Strapi on publish
- Lazy env initialization for reliable API calls on Amplify

FORM Forms & Submissions

- Puja sponsorship request form with full validation
- Facility / hall rental request form
- Change-of-address & email subscription forms
- Donation statement & all-other-forms pages
- Forms routed to backend API with error handling

NEXT Frontend (Next.js)

- Next.js 16 App Router with TypeScript & Tailwind CSS
- Responsive, mobile-first design throughout
- GSAP & Motion animations for smooth interactions
- Cart context with real-time badge count updates
- Om ambient audio player with mute toggle
- Admin portal with session auth & PDF file manager
